The federal Individuals with Disabilities Education Act (20 USC 1412(a)) and its implementing regulations (34 CFR 300.347) require each student's individualized education program (IEP) to contain statements of measurable annual goals which would enable the student to progress in the general curriculum. In addition, the IEP must also contain an explanation as to the extent, if any, to which the student will participate in the administration of state and district assessments (e.g., the STAR tests and the high school exit exam) as well as the Senior Project requirement.

The Individualized Education Program (IEP) team shall determine the appropriate standards and assessments, as well as the accommodations that may be required for students with disabilities. When necessary, the IEP team may develop differential proficiency standards and assessments appropriate to the student's needs and potential. These standards and assessments shall be included in the student's IEP.
